WORK EXPERIENCE **Haskell.org** *Summer 2011, Google Summer of Code Student*
Worked on parallelising Cabal, a system for building and packaging Haskell libraries and programs. My patches make it possible to build several Cabal packages in parallel.

Codedgers Inc. *December 2007-May 2011, Software Engineer*
Worked on Morpher (<http://morpher.com/>), an LLVM-based code obfuscator. Wrote a generic compiler driver (llvmc). Implemented a dynamic software watermarking tool suite. Worked on implementing malware detection algorithms for the antivirus project.

EDUCATION **Umeå University**, Umeå, Sweden
MSc(Eng) in Computer Science, May 2013 (expected)

Technical University of Denmark, Copenhagen, Denmark
Types at Work Summer School (<http://typesatwork.imm.dtu.dk/>), August 2009

PORTFOLIO **ghc-parmake**, 2011-now <https://github.com/23Skidoo/ghc-parmake>
A parallel driver for the GHC Haskell Compiler. It can build a Haskell program in parallel using multiple cores (à la `make -j`). Used as a drop-in replacement for `ghc --make`.

Haskell Platform, 2009-now <http://hackage.haskell.org/platform/>
The Haskell Platform is a single, standard Haskell distribution for every system, in the form of a blessed library and tool suite for Haskell. I maintain the Windows installer.

llvmc, 2007-2011 <http://llvm.org/releases/2.9/docs/CompilerDriver.html>
A generic compiler driver, designed to be customisable and extensible. Generates a C++ driver program from a declarative description. Used to be a part of the LLVM project.

Open source
I worked on patches for various open source projects including Doxygen, LLVM, Boost, Cabal and mkcabal. I'm 23Skidoo on GitHub.

Blog, 2011-now <http://coldwa.st/e>

SKILLS **Programming Languages:** Proficient in Haskell, C++, C, Python. Familiar with Ocaml, Java, Lua, Assembly (x86/MIPS/AVR), Matlab, SQL, UNIX shell.
Tools: Emacs, Git, SVN, MSVC, NSIS, etc.
Platforms: UNIX-like (preferable), Win32.

CERTIFICATIONS Brainbench Certificate in C++, 2008-12-01.

REFERENCES Available on request.

MISC Right to work in EU. Willing to relocate.
